INTRODUCTORY

THE Twenty-sixth bi-ennial Directory of the cities of New Albany and Jeffersonville is herewith presented to the public, The New Albany Directory, including Silver Hills, Lower Albany and Silver Grove contains 14,165 individual names. By using 2⅛ as a multiplier, the estimated population is 30,100 an increase of 1,372 over 1923.

The future of New Albany industrially, upon which all other growth depends, seems assured. With ideal labor conditions, good homes, a fine water supply, plenty of electric power and the transporation facilities of the B. & O., Monon, Southern and Pennsylvania and connection with six others over the K. & I. Terminal Railroad Company, New Albany has every thing a manufacturer needs.

New Albany industries show a steady growth. M. Fine & Sons have opened a second plant; the H. A. Seinsheimer & Co. are building a new plant of 40,000 square feet which will employ about 500 operators; the Period Cabinet Manufacturing Company has recently made a large addition to its plant and the F. R. McCracken Company is building a new and larger plant.

The real estate development which began in New Albany about three years ago shows a decided increase. More than five hundred new homes were erected in 1924 and the prediction of real estate men, is, that more than six hundred will be built in 1925. Until the present, building has been confined to the east end of the city, but building on Silver Hills and on State Street presages a development in that direction. The demand for homes in New Albany lies in the five to ten thousand dollar class.

The New Albany Country Club with its fine golf course and club house is the social center. The new Elks Home, Masonic Temple, Calumet Club and the Catholic Community Center provide places for amusement and recreation during the winter. Community Service with a full time recreation director has charge of eight playgrounds and provides clean wholesome supervised play. Glenwood Park and Silver Creek have long been known in the three Fall Cities for their beauty. All of the well known church denominations are represented here with fine edifices, many of which have recreation facilities in connection.

The combined deposits of the five banks is $8,435,819.18 and Capital stock $950,000.

The New Albany Chamber of Commerce recently re-organized with a budget of more than $10,000.00 annually is the clearing house for business and commercial interests. Other civic organizations are: The Round Table, Rotary Club, Kiwanis Club and East End Civic Club.

JEFFERSONVILLE'S INDUSTRIAL GROWTH

The Jeffersonville Directory which includes Clarksville, Ohio Falls, Midway, Claysburg and Port Fulton contains 8,298 individual names, which if multiplied by 2⅛ would give Jeffersonville and suburbs an estimated population of 17,633 an increase of 661.

Indiana Reformatory purchased by Colgate & Company of New York, in which they have established their midwest plant and are now manufacturing soaps and toilet articles and employ about 300 men. The plant is about one-fifth completed.

32257

Clark Hotel, modern 40 room hotel has been built.

Gorsuch Foundry, which employes about 20 men.

Jeffersonville Bottling Works, engaged in manufacturing and bottling soft drinks.

Organization of the Fall Cities Ferry & Transportation Co., which installed an up to date and efficient ferry service between Louisville and Jeffersonville, and are now running two of the largest steel ferry boats on the inland waters west of New York city.

Inland Waterways Company has purchased the Sweeney Foundry Co. river frontage, and are building large river terminals that will connect river traffic with all the railroads entering Jeffersonville.

Pennsylvania Railroad has purchased many acres of land on the north boundry of the city and will build extensive yardage and a new depot at Duncan Avenue and 14th St.

Big Four railroad is enlarging their yardage and terminals.

Jeffersonville Depot of the Quartermasters Corps, United States Army, has largely increased its building and facilities since issuing the 1923 directory and it is now one of the largest in the United States.

Interstate Public Service Company has purchased over 100 acres of land on the River front just north of Jeffersonville and will build a large power plant which will be connected by overhead power lines with the Dix River Dam Power Plant, thereby giving Jeffersonville an abundant supply of electric power and lights.

The Howard Ship Yard Co. which is located here is one of the oldest shipbuilding yards that has been in continuous operation on inland waters, having been established by the Howards in 1834. They build river craft for the inland waters and have built boats for South America and the Klondike Regions. They employ from 300 to 500 men.

Jeffersonville Canning Company, which cans a large variety of vegetables, among which is kraut, has the distinction of being the largest kraut manufacturing and canning plant in the United States, and employs from one to two hundred people.

Hemple Manufacturing Company, which manufactures automobile parts, employs about 50 men.

Holzbog Manufacturing Co., manufactures wagons, among which is water and garbage wagons, of special design.

Jeffersonville Manufacturing Company, manufacturers of furniture employ from 40 to 50 men.

The American Car & Foundry Company, maintains one of its large plants in this city and manufactures modern equipment for steam and electric railways. Employs from 1500 to 2000 men.

Jeffersonville has the best and purest water supply in Indiana, which is pumped from driven wells east of the city near the Quartermaster's Depot.

Jeffersonville is ideally situated, it has many beautiful homes, churches of every denomination, best of high, ward and parochial schools, splendid rail and river facilities and ideal labor conditions. Jeffersonville is a good place to live in.

The publishers wish to thank the business men and the citizens of New Albany and Jeffersonville for their continued support, without which it would be impossible to issue a Directory.

We are under obligations to Stanley A. Warner, Secretary of the Chamber of Commerce of New Albany and to C. B. McBride, of the Jeffersonville Chamber of Commerce, for courtesies shown us.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyer's Guide on earth. A modern up to date method of getting what you want.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyer's Guide on earth. A modern up to date method of getting what you want.

CORONA FOUR

A New Portable Typewriter for the office

HERE at last is a typewriter which any standard machine operator can use interchangeably with her present typewriter. It has the same *standard 4-bank keyboard*, the same time-saving devices and the same light touch and speed. But she can carry it anywhere about the office—and home if necessary.

It will pay every office to have a Corona Four on hand for emergencies.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyer's Guide on earth. A modern up to date method of getting what you want.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyer's Guide on earth. A modern up to date method of getting what you want.
